Peggy Bareh is an inspirational award-winning author, empowerment leader, independent domestic abuse advocate and CEO of I AM Thriving Now; The World's most inspirational global movement for one million ambitious abuse survivors to turn their Pain into Gain.

Having lost all hope after a lifetime of abuse, Peggy suffered terribly from zero-confidence, a paralysing fear of rejection, and debilitating depression.

Hanging onto her faith, she built up the courage to leave the abusive relationship with her partner, taking her three children to embark on a three-year journey of self-discovery that would change their lives forever.

Peggy learned how to turn her Pain into Gain, creating a unique recovery toolkit called 'I AM Thriving Now', which unlocks the greatness of every life that this powerful program touches.

Peggy has inspired and transformed hundreds of lives already and is now on a Global mission to empower you to thrive, not just to survive.
